**Subject:** Wilcox TO #128 - Eco Questions

Katrina,

Here are a few questions that we have:

1. What freshwater/sediment/eco standards/criteria we should be considering in developing DQOs, including any State of Oklahoma criteria?

We will be talking this afternoon. I will update you after that.

2. Stream classification for Sand Creek?

This should be part of the OK water quality regulations.

3. Endangered/threatened species?

There is a web site that you can use to search our area. We may still need to do a reconnaissance or survey to see if they are indeed present.

We are still working on the CSM. As soon as I have all the edits complied I will forward it to you.

Thanks,

Teri McMillan, PG EA Engineering, Science, and Technology, Inc., PBC 320 Gold Ave SW, Suite 1300 Albuquerque, New Mexico 87102 (505) 715-4332
